Subject of your enquiry: Hello, please send the request below to the EMA Service desk and/or create an access account for me on: <https://servicedesk.ema>.

Your question(s):

Dear,

Thank you for sending me the completeness of the severe and non-severe adverse effects of the year 2021 for each of the four Covid vaccines, namely: COVID-19 MRNA VACCINE MODERNA (CX-024414), COVID-19 MRNA VACCINE PFIZER-BIONTECH (TOZINAMERAN), COVID-19 VACCINE ASTRAZENECA (CHADOX1 NCOV-19) and COVID-19 VACCINE JANSSEN (AD26.COV2.S), i.e. 8 files in CSV format.

Indeed, the Pfizer files generated by the planned data export via the "Line Listing" tab of the EMA's GUI: [https://www.adrreports.eu/fr/search\\_subst.html#](https://www.adrreports.eu/fr/search_subst.html#) are truncated, a limit of 249,900 rows blocks the full generation of data files.

AstraZeneca's serious adverse effects file also reached this limit last November but seems to have been purged afterwards, so I would like you to generate the 8 files for me without any limitation, an action which is impossible for me via the HMI, I am at your entire disposal for any further information, and could, if you wish, open an ephemeral sharing of my disk so that you can deposit the files there, cordially. Catherine Teilhet.
